

WANDLAMPEN OUTDOORPRO+

1

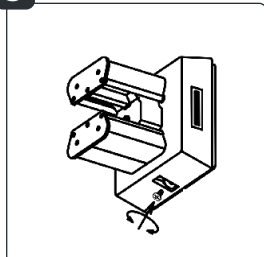

Controleer allereerst of alle onderdelen aanwezig zijn.

2

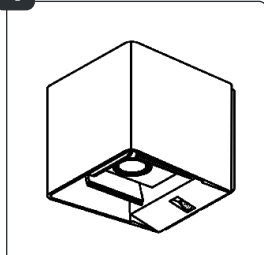

Draai de schroef die aan de onderkant van het opbouwarmatuur los zit en haal de opbouwarmatuur uit elkaar. Bevestig het opbouwarmatuur tegen de wand met de meegeleverde schroeven. Zet de andere kant van het opbouwarmatuur weer op de opbouwarmatuur die tegen de wand is gemonteerd.

3

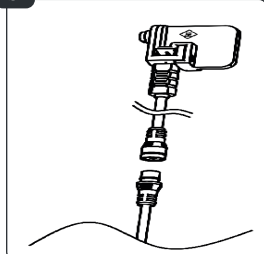

Bevestig het opbouwarmatuur door de schroef aan de onderkant weer vast te maken.

4

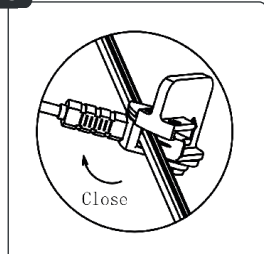

Zet nu de kap op het opbouwarmatuur.

5

Verbind het koppelstuk van de wandlamp (of de 12 volt verlengkabel) met de connector productkabel.

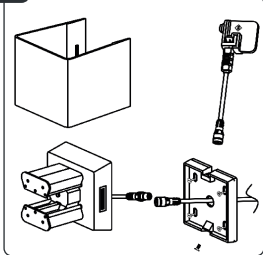

6

Plaats nu de 12 volt hoofdkabel tussen de connector productkabel en klik de connector vast aan de hoofdkabel. Je verlichting is nu klaar voor gebruik.

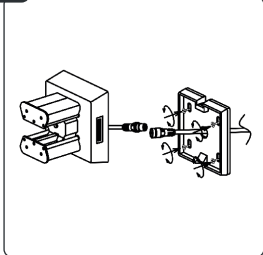

WANDLEUCHE OUTDOORPRO+

1

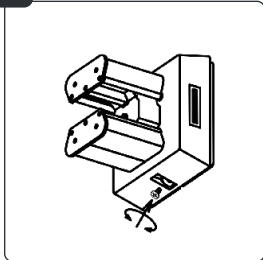

Prüfen Sie zunächst, ob alle Teile vorhanden sind.

2

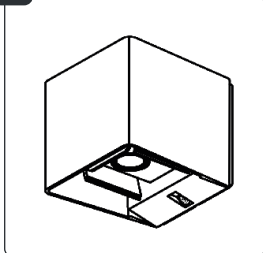

Lösen Sie die Schraube an der Unterseite des Aufbaugehäuses und nehmen Sie das Gehäuse auseinander. Befestigen Sie die Grundplatte mit den mitgelieferten Schrauben an der Wand. Setzen Sie anschließend den anderen Teil des Aufbaugehäuses wieder auf die montierte Grundplatte.

3

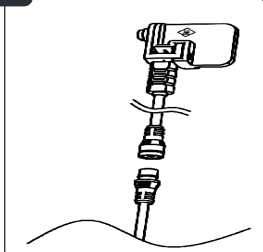

Befestigen Sie das Aufbaugehäuse, indem Sie die Schraube an der Unterseite wieder festziehen.

4

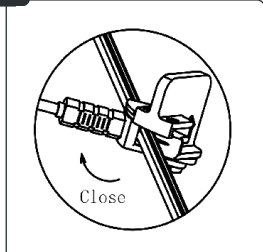

Setzen Sie nun die Abdeckung auf das Aufbaugehäuse.

5

Verbinden Sie den Steckverbinder der Wandleuchte (oder des 12V Verlängerungskabels) mit dem Produktkabelverbinder.

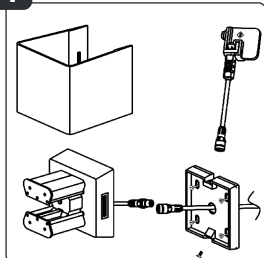

6

Platzieren Sie nun das 12V Hauptkabel im Produktkabelverbinder und klicken Sie den Verbinder am Hauptkabel fest. Ihre Beleuchtung ist nun einsatzbereit.

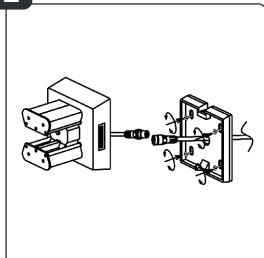

WALL LIGHTS OUTDOORPRO+

1

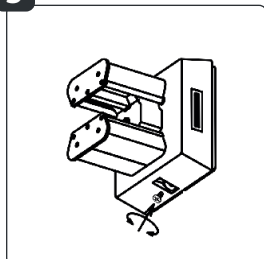

First, check that all parts are included.

2

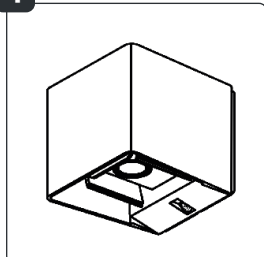

Loosen the screw at the bottom of the surface-mounted housing and take the housing apart. Attach the base plate to the wall using the supplied screws. Then place the other part of the surface-mounted housing back onto the mounted base plate.

3

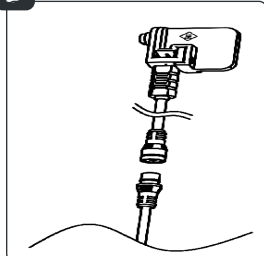

Secure the surface-mounted housing by tightening the screw at the bottom.

4

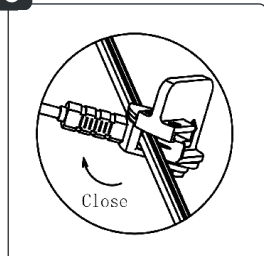

Now place the cover onto the surface-mounted housing.

5

Connect the wall light connector (or the 12V extension cable) to the product cable connector.

6

Now place the 12V main cable into the product cable connector and click the connector securely onto the main cable. Your lighting is now ready for use.
